Claudia, there was no map included. I have requested the “legal description” that is mentioned on page two of their recommendation, but the Tribe’s attorneys have not responded yet. See question 4 on the attached. I sent this email to Monique Douville on Oct. 24th:

Hi Monique,

Thank you for sending the Ute Tribe's designation recommendation for the 2015 ozone NAAQS. We did not see an attached legal description for the specific area surrounding the Ouray monitoring station as referenced in footnote 6 on page two of the recommendation. Please send that to us at your earliest convenience.

**⁶ The specific area surrounding the Ouray monitoring station t
nonattainment will be further detailed in an attached legal desc**

Also, we received no comments on the Ute Tribe's Exceptional Events package for which the public comment period ended September 29th. We would like to request that the Tribe's attorneys send us an email request for EPA to proceed with considering the Exceptional Events package as it was submitted for public comment (i.e. with no changes).

Please call if you have any further questions.

Thank you,

Jody

Please find attached my draft responses to Newfield's questions.

Thanks,

Jody

Hi Jody – Please take the lead and draft responses to the designation questions from Newfield and send back to this group. Looks like we need something by the end of the week also?
some

Ex. 5 - Deliberative Process

Claudia – You may have to put Newfield off until the week of December 12th.

Monica,

Newfield has requested a meeting to discuss the attached list of questions provided ahead of time. They requested the meeting as a call with me tomorrow, but I am trying to get them to reschedule to late next week after reviewing the questions in order to be able to answer most of the questions. Is there someone from your group, maybe Jody, that could help with developing answers to the designation-related questions? I know the Tribe's recommendation is on our website, so that one is easy, but the others seem to need carefully thought out answers.

Thanks,

Claudia
